Expertizo

Mern-stack developer

It has been 10 months since I started at Expertizo as a MERN stack developer.

Decotechs

MERN stack developer

Worked 10 months in Decotechs as MERN stack developer

jamal brother

React js next js

As a frontEnd developer work 4 months

Projects

Project: Madrasa – Education Management Web App

Worked with a team to develop Madrasa, an education management platform using the MERN stack. Built Admin, Teacher, and Student portals with pages for classes, departments, settings, notifications, chat, results, schedules, and fee management. Enabled students to check results, fees, class schedules, and levels, while teachers could view their classes, departments, and student lists. Collaborated on creating clean, responsive interfaces and managing all user activities within the admin panel.

Time Tracking Application with Real-Time Data and Screenshot Capture

Developed a robust time tracking application using React, Electron, and Firebase, enabling real-time session management, automated screenshot capture, and geolocation tracking. Implemented asynchronous data handling and database operations to ensure seamless day-to-day transitions and accurate time logging for enhanced productivity monitoring.

Pertime

Independently developed PERTIME, an HR and organization management web app with Admin and User dashboards. Designed and built pages for employees, leave, reports, complaints, and settings. Ensured clean, responsive UI and smooth user flows across the platform. Collaborated on integrating the payroll module within the system.

Crypto Platform Frontend Development

Worked with a blockchain team as a Frontend Developer, building responsive crypto websites and dashboards. Integrated wallet connections, blockchain APIs, and real-time data displays, ensuring secure and smooth user experiences.

E-commerce Store, Social Network, Photo Gallery, and Portfolio

Personal Portfolio: E-commerce Store, Social Network, Photo Gallery, e-commerce store with product browsing, social platform for posts/comments, photo gallery with privacy settings with session logging, viewable at below link
